COURSE DESCRIPTIONS
TUESDAYS, 1/22/19– 5/7/19

PUBH 5405-F40  Social & Behavioral Foundations of Public Health  3 credits
(17519)  UCONN Health Farmington
PUBH 5405-001  Social & Behavioral Foundations of Public Health  3 credits
(14080)  UCONN Storrs

Be sure to select the campus where you expect to attend classes

An introductory survey emphasizing basic social science concepts in the analysis of public health, including orientations toward health, disease and health care, the origins and distribution of health care resources and the role of social movements and research in improving public health. Permission number required from MPH Office.

Instructor:  Alicia Dugan, PhD  adugan@uchc.edu
Time:  5:30 – 8:30 PM
Locations:  Patterson Auditorium, Farmington
           Rowe 320, Storrs

PUBH 5436-F40  Intermediate Epidemiology  3 credits
(17522)  UCONN Health Farmington

This course will go into depth on some of the major design and implementation issues in epidemiology and biomedical research. These issues will be explored by considering the following topics: the structure and design of the important cohort studies in Framingham; the Atomic Bomb survivors in Hiroshima and Nagasaki; Tamoxifen intervention for prevention of breast cancer; cervical screening with Pap and HPV DNA; international differences in cohort effects in breast cancer risk; impact of circadian disruption by electric lighting on disease. By the conclusion of the course, the student should have a better appreciation of the importance and complexities of epidemiological investigation.

Instructor:  Richard Stevens, PhD  bugs@uchc.edu
Time:  5:30 – 8:30 PM
Location:  Suite 2100, Large Conference Room, 195 Farmington Ave.

PUBH 5462-F40  International Health  3 credits
(17529)  UCONN Health Farmington

Examines primary health care as a model suited to the health needs of developing nations. Provides a broader understanding of the genesis of illness in developing countries and analyzes the kind of care required to have an impact on these illnesses.

Instructor:  Marie Brault, PhD  marie.a.brault@gmail.com
Time:  5:30 – 8:30 PM
Location:  U3017A/B, 195 Farmington Ave.

PUBH 5497-F40  Reproductive Ethics and Rights  3 credits
(17629)  UCONN Health Farmington

This course will explore ethical, human rights, and policy issues related to the provision of reproductive health care using an interdisciplinary perspective. It will examine the requirements of reproductive justice and evolving views over time of the obligations of governments to provide reproductive health services to all women and men. The course will assess the ethical implications of the use of a variety of assisted reproductive technologies, both current and developing technologies, including the genetic screening of embryos, egg donation and payment, sex selection, mitochondrial replacement, and gene editing. The course will also address legal issues related to the regulation of various forms of reproductive health status and pregnancy termination. Course materials will expose students to a variety of perspectives. We also will track and discuss current political controversies and policies. The readings and discussions will focus on the United States, but material from other countries will also be integrated in the course.

Instructor:  Audrey Chapman, PhD, MDiv, STM  achapman@uchc.edu
Time:  2:00 – 5:00 PM
Location:  U3017A/B, 195 Farmington Ave.

This course examines the demographics of aging; organization, financing and delivery of health services for older adults; formal and informal caregiving; retirement and housing policy; and end-of-life care. Policy and ethical aspects of these topics will be explored. The course will be research-oriented, integrating empirical evidence to illustrate central concepts. Familiarity with basic principles of research design, including ability to critically read and synthesize scientific literature is important.

**Instructor:** Julie Robison, PhD  
**Time:** 2:00 – 5:00 PM  
**Location:** ASB2, Administrative Services Building (ASB)

This course will introduce the topic, emphasizing the definition, identification and prevention of nutrition-related disease, as well as ways of improving health of a population by improving nutrition. This course also emphasizes the societal, economic, environmental and institutional barriers to improving the nutritional status and health of diverse population groups. It will discuss key concepts and methods in nutritional epidemiology in order to equip students with some of the tools needed to design, analyze and critically evaluate population-based nutrition research. Lastly, it will review existing programs and policies, including strengths, weaknesses and areas for modification or new interventions.

**Instructor:** Angela Bermudez-Millan, PhD, MPH  
**Time:** 2:00 – 5:00 PM  
**Location:** U3017A/B, 195 Farmington Ave.
COURSE DESCRIPTIONS
THURSDAYS, 1/24/19–5/9/19

PUBH 5409-F40 Introduction to Epidemiology & Biostatistics II 3 credits
(17521) UCONN Health Farmington
PUBH 5409-001 Introduction to Epidemiology & Biostatistics II 3 credits
(11800) UCONN Storrs

Be sure to select the campus where you expect to attend classes
This is the second of a 2-course required sequence for students pursuing the MPH degree that introduces students to concepts and methods of epidemiology, biostatistics and public health research. Topics include nature of variability, common probability distributions, causal reasoning, control of bias and confounding, descriptive and analytic design of observational and experimental studies, principles of disease screening and clinical efficacy. Non-degree students may request permission to enroll through the MPH Program Office.

Instructor: Scott Wetstone, MD wetstone@uchc.edu
Time: 6:00 – 9:00 PM
Locations: Patterson Auditorium, Farmington
Rowe 320, Storrs

PUBH 5453-F40 Chronic Disease Control 3 credits
(17536) UCONN Health Farmington

Chronic diseases are examined from clinical, epidemiologic and evidence-based risk reduction perspectives. Diseases examined include selected cancers, Type II diabetes, cardiovascular and cerebrovascular diseases, chronic obstructive pulmonary disease, obesity, sickle cell disease/trait and conditions tested in state newborn screening programs. Also covered: historical and modern roles of public health agencies in chronic disease control and ethnic/racial disparities in incidence and outcomes.

Instructor: Helen Swede, PhD swede@uchc.edu
Time: 2:00 – 5:00 PM
Location: U3017A/B, 195 Farmington Ave.

PUBH 5463-F40 Comparative Health Systems 3 credits
(17530) UCONN Health Farmington

This course will conduct a comparative analysis of how selected health systems perform key functions, deliver essential services, finance health service delivery, and prioritize public health provision. It will also address how health systems are responding to a series of challenges such as funding the escalating costs of health services and health-related inputs, responding to demands for expanding health services coverage, and responding to the shift to the disease burden from infectious to non-communicable diseases. The countries which will be covered in readings, lectures, and discussions will include the U.S., Britain, Germany, France, Brazil, Mexico, Israel, India, China, and Japan. This will not be a human rights course but it will assign and discuss relevant human rights norms.

Instructor: Audrey Chapman, PhD, MDiv, STM achapman@uchc.edu
Time: 5:30–8:30 PM
Location: Suite 2100, Large Conference Room, 195 Farmington Ave.

PUBH 5497-F44 Transportation, Energy, Land Use and Public Health 3 credits
(17634) UCONN Health Farmington

This course focuses on 1) the impact of transportation, energy and land use on population health status and quality of life; 2) their disparate and discriminatory impact on minority and low income persons and families; and 3) strategies to improve public health within these domains. The course is designed to prompt lively class discussions/debates and will introduce students to guest speakers providing valuable contacts and resources.

Instructor: Barry Zitser, JD, MPH zit123cap@gmail.com
Time: 5:30–8:30 PM
Location: U3017A/B, 195 Farmington Ave.
COURSE DESCRIPTIONS
FRIDAYS, 1/25/19–5/10/19

PUBH 5497-F45 Leadership Education in Neurodevelopmental and related Disabilities 3 credits
(LEND) Seminar II
(17906) UCONN Health Farmington

This is the second of a 2-seminar sequence that is part of an interdisciplinary leadership training program aimed at improving the health of infants, children and adolescents who have, or are at risk for developing, neurodevelopmental and other related disabilities, with an emphasis on autism spectrum disorders. Lecturers include experts from different disciplines from UConn and across the country. Topics include the following: cultural competency, family-centered care, interdisciplinary teamwork, service integration, community-based organization, disability policy and advocacy, etc. This seminar is open to Leadership Education in Neurodevelopmental and related Disabilities (LEND) trainees.

Instructor: Mary Beth Bruder, PhD bruder@uchc.edu
Time: 8:30 – 4:30 PM
VARIABLE DAYS & TIMES

PUBH 5495  Independent Study in Public Health  1 – 9 credits
(17540)  UCONN Health Farmington
An individual course for those wishing to pursue special topics in the public health sciences under faculty supervision. May be repeated for credit.
Instructor:  Staff
Time/Location:  By arrangement

PUBH 5498-F40  Field Experience in Public Health Systems  Variable credits
(17523)  UCONN Health Farmington
Under direction by field preceptors, students will participate in an intensive service-learning experience wherein they will examine a timely public health issue from the perspective of health indicators/disease surveillance; policy development; planning, implementation, or evaluation of public health services; essential public health functions; and operational issues of a large complex public health agency/organization. (NOTE: Students will be required to minimally dedicate a half day (at least 3 day-time hours) each week to their onsite field work obligations, consistent with the hours/schedule of the agency/organization and must adjust their schedules accordingly.) Permission number required from MPH Office.
Instructor:  Stacey Brown, PhD stbrown@uchc.edu
Time/Location:  By arrangement

PUBH 5499-F40  Capstone Project in Public Health  Variable 3-6 credits
(17524)  UCONN Health Farmington
Under faculty guidance, students pursue independent projects on special topics in the public health sciences. This is the course intended for students pursuing a final project. Permission number required from MPH Office.
Instructor:  David Gregorio, PhD, MS gregorio@uchc.edu
Time/Location:  By arrangement

PUBH 6490-F40  Public Health Doctoral Research Seminar  1 credit
(17526)  UCONN Health Farmington
The Public Health Doctoral Research Seminar is required of all doctoral candidates. Seminars should be completed during the first three semesters of enrollment. This course is on the dynamics of teaching public health, under the supervision of a faculty member during that faculty member’s course. Using selected readings and workshops on teaching effectiveness, students will shadow instructors of the public health program and reflect on differences inherent in teaching in large lecture or small conference settings. Please arrange this placement with the faculty member and the Program Director. Permission number required from MPH Office.
Instructor:  Thomas Babor, PhD, MPH babor@uchc.edu
Time/Location:  By arrangement

GRAD 5950  Master’s Thesis Research  Variable 1-9 credits
(17614)  UCONN Health Farmington
This course is to be used by those students who are performing required research for the Master’s Thesis paper. Other courses may be taken concurrently and students may hold a graduate assistantship. Full-time enrollment equals a total of 6 credits. Recommendation of student’s major advisor and MPH program permission required.
Instructor:  Student’s Major Advisor
Time/Location:  By arrangement

GRAD 5998-F10  Special Readings  0 credits
(17614)  UCONN Health Farmington
To be used by master’s students who are not enrolled in a thesis (Plan A) track. This is a non-credit course for which master’s degree students must register in cases where their regular program of course work for credit has been interrupted and they are not otherwise registered.
Instructor:  Student’s Major Advisor
Time/Location:  By arrangement

GRAD 5999-F10  Thesis Research  0 credits
(17615)  UCONN Health Farmington
Open only to graduate students enrolled in a Plan A Master’s Degree Program. This is a non-credit course to be used to maintain registered status by Plan A master’s students who have completed their coursework and who are not registered for any other credit-bearing course.
Instructor:  Student’s Major Advisor
Time/Location:  By arrangement
ONLINE COURSES

PUBH 5479-F40  Alcohol and Drug Policy Research  3 credits
(17538)  Online
Policymakers and government officials are increasingly seeking answers to practical questions about the impact of policies and programs on the health of the population, as well as on crime rates, traffic accidents and harm to others. Discussion of the measures, methods and research designs used to investigate alcohol and drug policy issues, including prevention science.
Instructor: Jonathan Noel, PhD, MPH  jonathan.noel@jwu.edu
Dates/Times: By arrangement

PUBH 5481-F40  Research Careers & the Responsible Conduct of Research in Alcohol & Addiction Science  3 credits
(17539)  Online
This course is designed to achieve three objectives: 1) Teach students about the responsible conduct of research and ethical research practices; 2) Provide guidance on how to develop a sound research proposal by guiding students through the public and private grant writing process; and 3) Review career options and employment opportunities in addiction science. Permission number required from instructor.
Instructor: Thomas Babor, PhD, MPH  babor@uchc.edu
Dates/Times: By arrangement

PUBH 5501-F40  Foundations of Public Health and Disability  3 credits
(17528)  Online
Introductory survey of the ways in which disability, both developmental and acquired, is affected by, and interacts with, public health policy and practice. Students will have a foundational understanding of a comprehensive set of issues of both acquired and developmental disability as related to the core elements of public health as framed by the 10 Essential Public Health Services. Permission number required from instructor.
Instructor: Tara Lutz, PhD, MPH, CHES  lutz@uchc.edu
Dates/Times: By arrangement

PUBH 5502-F40  Epidemiology of Disability  3 credits
(17533)  Online
This course introduces epidemiologic research design and delves deeply into epidemiology, as it applies to monitoring the health status of people with disabilities, diagnosing and investigating health problems, evaluating personal and population-based interventions, and conduct of research as uniquely affecting and affected by disability. It also critically examines sources of public health and epidemiologic data that exist. As part of the Certificate of Interdisciplinary Disability Studies in Public Health (Disability Certificate), the course aligns with the 10 Essential Public Health Services. Prerequisites: PUBH 5501 (waived with instructor permission).
Instructor: Tara Lutz, PhD, MPH, CHES  lutz@uchc.edu
Dates/Times: By arrangement

PUBH 5504-F40  Public Health Interventions in Disability  3 credits
(17525)  Online
This course is the final course in the Certificate of Interdisciplinary Disability Studies in Public Health (Disability Certificate). It aligns with the 10 Essential Public Health Services. It critically examines public health systems and programs across the lifespan available to people with disabilities that impact health. It extends on foundational principles that are evidence-based and driven by epidemiologic studies of disability within the context of existing laws and policies. Prerequisites: PUBH 5501, 5502, & 5503 (waived with instructor permission).
Instructor: Tara Lutz, PhD, MPH, CHES  lutz@uchc.edu
Dates/Times: By arrangement
